Many find it helpful to place their text on a stand while using any kind of magnifier. Reading stands are particularly beneficial to arthritis sufferers. In fact, when it comes to reading in comfort there are many options available. We would be very happy to discuss these options with you and advise you. Book stand prices start from £16.99.

Menas Lux Brightfield Magnifiers - £97.00
- A low illuminated stand magnifier, with a large visual field at a strength of 3x magnification.
- The integrated light makes it very good in poor light conditions.
- Clear, quality resolution.
- PXM lens, 63 mm in diameter. Requires 1x AA batteries.

Menas Zoom Bright field magnifier - £87.00
This magnifier has an adjustable magnification of 2.2x—3.4x, making it suitable for any size of print. Large visual field with a variable distance of use. PXM lens.

Reference: AO14388

Eschenbach Power Lux
- The ergonomic design is tailored specifically for comfortable use and ease of movement.
- Consistent bright illumination, available with two different colours of glare-free light.
- Lens 58 mm in diameter.
- An automatic switch off function preserves the battery life. Requires 3x AA batteries.

Reference: 8000 K light: AO158620
3000 K light: AO1586201
Price: £84.00

Eschenbach Scribolux
- Hands-free stand magnifier with plenty of space underneath the lens for writing. Ideal for crosswords etc.
- Bright, even and glare-free illumination that does not produce shadowing when writing. Scratch-resistant 100 x 75 mm lens of 2.8x magnification.

Reference: AO15651
Price: £87.30
Eschenbach Mobilux
Economy Illuminated Pocket Magnifier

Slightly lower down the price scale while still offering effective illumination and magnification.

Schweizer Okolux Plus Illuminated Stand Magnifiers

- Schweizer Okolux Plus stand on their own, providing hands–free illumination and magnification. This means you can just concentrate on reading, using the handle to move the magnifier across the reading surface.

- These magnifiers use a multi-chip LED light that produces almost three times the brightness of conventional LEDs.

- Low energy consumption and long battery life (over 50,000 hours of continuous use).

- Come complete or as individual handles and head lenses. Interchangeable lenses in a wide range of magnification levels are available.

Schweizer Okolux Plus LED Handle, available in three different light temperatures:

Electronic Magnifiers

Electronic magnifiers offer the most versatile and visually effective form of visual aid available today.

The following electronic handheld magnifiers are lightweight, portable and often prove to be indispensable companions.

**MiniMAX**
- Magnification approx. x3, x5 and x7.
- 2.8” TFT Screen.
- 3 easy to use buttons.
- Full colour plus 5 semi-colours.
- Freeze-image function.
- Operating time approx. 3 hours.
- Rechargeable Li-ion battery, protective bag and hand and neck strap included.
- Dimensions (WxHxD) and weight: 90/115 x 60 x 30 mm, 142 g.

Price: £298.00

Reference: OPVPMIMAX1

**eMag 43**
- Magnification of 2x to 14x in 3 steps.
- eMag 43 has a large 4.3 inch LCD display, but is small enough to fit into a pocket or handbag.
- Each function is controlled by an easily accessible coloured button.
- Freeze image function.
- Full colour plus 4 semi-colours.
- Included rechargeable batteries can also be exchanged with standard disposable batteries. Operation while charging is possible.
- Operating time of 2 hours.
- Carry case with belt loop and carry strap, wrist strap, power adaptor with cord are all included.
- Dimensions and weight: 4.9” x 3” x 1.3”, 218 g.

Price: £394.00

Reference: OP543002

(Picture courtesy of Optima Low Vision Services Ltd)
**Eschenbach Mobilux Digital**

- Advanced AMOLED technology ensures a clear, high contrast image.
- 3.5" full colour screen.
- Magnification of 3x, 4.5x and 6x.
- Freeze function to capture an image.
- 4 hour battery life with a 2 hour recharging time.
- Modes: Full colour, contrast enhanced, positive/negative.

Supplied with lanyard and case.

Price: £298.00
Reference: AO16581

(Picture courtesy of Associated Optical)

**Optelec Compact 5 HD**

- High definition specially formatted for reading newspapers, magazines and letters.
- Wide magnification range with a continuous zoom of 1.5x – 18x magnification.
- 5" full colour TFT widescreen display.
- Always in focus; capable of reading close to or at a distance (up to 1.2m / 4 ft).
- Rechargeable batteries allow up to three hours of use.
- Tilting screen for comfortable viewing.
- Large icon settings and information menu.
- Freeze image facility.
- Carry case and wrist strap included.

Dimensions: 13.7 x 8.8 x 2.3 cm Weight: 294g

Price: £694.00
Reference: AO16581

(Picture courtesy of Edward Marcus Ltd)

**eMag Base**

A stand on which you can place your eMag, allowing more comfortable reading at a lower magnification.

Price: £15.00
Reference: OP535042

QuickLook 2Go

- Adjustable magnification has 3 zoom levels: 3x, 6x, 12x
- 4.3” LCD high brightness screen.
- Simple to use with just three buttons: zoom, viewing mode and photo/freeze.
- Viewing modes: Full colour, enhanced black on white, white on black, a selected range of semi colours.
- Has a flip-out side camera, a centrally mounted camera and a centrally mounted camera for full viewing flexibility.
- Central camera has a superb depth of field for both near and distance viewing.
- Rechargeable battery with approximately 5 hours continuous use and a recharge time of 2.5 hours.

Dimensions: 140 x 82 x 23mm, weight 220g

Price: £598.00

Reference: VEQUICKLOOK
Desktop Video Camera Magnifiers

All Desktop Video Camera Magnifiers combine powerful magnifiers with cameras so that any text or image placed underneath the magnifying head can be enlarged on a big screen. Some come with their own inbuilt screen, while others can be connected to, and viewed on, a standard TV or even a computer.

**Mezzo 3**
Magnifies images so that you can see things in ‘big’, but on a device that can still fold to be small enough to be portable.

- Easy for anyone to carry, install and operate – simply unpack and unfold.
- Flicker-free picture and high-resolution picture quality reduces visual fatigue, thus increasing duration of use.
- Includes memory, windowing and line marker functions.
- Includes rechargeable batteries and a practical carry case. Operation time 2—3.5 hours.
- 15.6” W TFT adjustable and inclinable monitor, including 90° for reading columns.

Magnification: 2.2x to 90 x.
Dimensions (WxHxD) and weight: 39 x 49 x 49 cm, 5.3 kg.

Price: £1698.00 Reference: OPVPMEZZO3

Optional XY Table available for smooth tracking when reading
(Dimensions: 30 x 34 cm)
Price: £269.50 Reference: OPZBMEZZXT
**Videomatic Lux**

- Wide LCD screen.
- An ideal solution for ‘eccentric reading’ and ‘steady eye strategy’.
- A floating reading surface allows you to move easily down the page as you read.
- The reading surface can also lock into position to give you a firm surface for writing.
- All controls are on a handy remote control.
- The screen is on an adjustable arm, so that you can find an angle and height to suit you.
- Enhanced colour selections including natural colour, black/white, negative and four colour text options.
- Remembers your last settings.
- Magnification up to 95 x

**Screen available in either 19” or 22”:**

The St Albans Medical Centre works with Edward Marcus Ltd, Optima Low Vision Services Ltd, Visual Eyes, and Associated Optical in order to bring you products manufactured by Eschenbach, Coil, Schweizer, Daylight Company, Peak, Speckwell, Noir Medical, Enhanced Vision, LHP, Bierley, Praktica, Magnifico, Ottlite, Thomas Sinclair Laboratories, Optelec and The Royal National Institute for Blind People.

Please order by email or fax where possible. To avoid any chance of error, when you order please state the reference number of the item, provide a description wherever possible, and leave a name, postal address and an email address/contact number.
Email: contact@stalbansmedicalcentre.com
Fax: 01727 752235
St Albans Medical Centre, The White House, 11 London Road, St Albans, Hertfordshire, AL1 1LA

Those with a permanent or degenerative eye condition may be eligible for zero rated VAT on some low visual aids. Please refer to Section 3.4 in the ‘Terms and Conditions’ (overleaf).
The St Albans Medical Centre Terms and Conditions of Sale

1. General

1.1 All goods remain the property of the St Albans Medical centre until paid for in full.

1.2 All products come fully guaranteed with a one year warranty.

1.3 For reasons of hygiene, all spectacles are non-returnable.

1.4 All product specifications are taken from the manufacturer’s literature and we cannot be held responsible for inaccuracies. Manufacturers reserve the right to amend specifications from time to time. We endeavour to be accurate but errors and omission may occasionally occur and must be accepted.

1.5 Because of the manufacturer’s right to amend specifications, this may involve amendments to product prices. We reserve the right therefore to amend prices when and where it is necessary. Goods will be invoiced at the price applicable on the day of dispatch.

2. Payment

2.1 Preferred methods of payment are: Debit card, Cheque made payable to Hulbert Estates Ltd, or BACS.

Payment must be received before your order can be despatched. Credit card payments attract a 3% surcharge.

3. Value Added Tax (VAT)

3.1 All prices are exclusive of tax (with the exception of reading stands where tax is included) and postage.

3.2 Unless otherwise stated, all prices are subject to VAT at the rate applicable on the day of supply.

3.3 Delivery to other European Union Countries: All prices quoted are subject to UK VAT at the rate ruling on day of supply. For delivery to non-European countries VAT is not applicable.

3.4 VAT must be paid on all low-vision aids unless being purchased by a visually impaired person for their own personal and domestic use, or is being purchased for them out of charitable funds by a registered charity. In these cases a signed eligibility for zero rated VAT must be presented information to demonstrate that a customer fulfills all the criteria for eligibility (see Section 10.1 HMRC information on reliefs for disabled people). The declaration should be separate, or clearly distinguishable from any order form or invoice against which the goods or services are supplied. A customer signing an order should not automatically be signing a declaration of eligibility for VAT relief. It is a serious offense to make a false declaration. VAT cannot be deducted or reimbursed retrospectively.

4. Postage and Delivery

4.1 We endeavour to dispatch goods on the next working day following a receipt of order. However on occasion goods will have to be ordered and may be delayed by supply problems from manufacturers or importers. All items will be dispatched for next day delivery where possible. Please allow for up to 21 days delivery.

4.2 Mainland UK – For smaller orders weighing under 5 kg, a packing and postage charge of £6 will be added to your purchase. For heavier items a packing and postage charge of £12 will be added to your purchase. For any items weighing 10 kg or over, or with a value of £150 or more, postage will be charged at cost.

4.3 Export and offshore orders – All deliveries outside mainland UK will be charged at cost. An export handling and administration charge will apply to all overseas orders with a total value of £100.00 or more.

5. Returns

5.1 If necessary, we will exchange or refund the cost of items returned to us within 7 days of dispatch. We regret that this refund excludes the postal charges of the returned items.

5.2 Your statutory rights are not affected.

Returned items must be in a re-saleable condition and in the original packaging.
